Engaging

Welcoming

Thought-Provoking

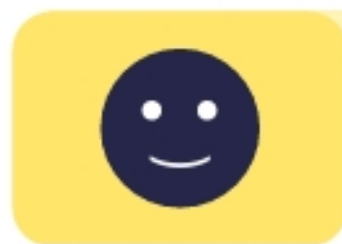

What I was hoping to gain from today

Reminder of how far we've come

Ideas of incorporating more into my practice

Networking

to find out more about the amazing work being done towards the Promise

How well it met my expectations and needs

Got the batteries changing

Very much met my expectations

Great networking - we need more

Very Informative day

We need more opps to get together

100%

What I think will be the most useful takeaways

Really great event - highlighted again networking

Information on other organisations and learning together

Networking and hearing stories

Kinship services

Increasing awareness for all re- supports available

Think about all of our family

Thinking of better ways to involve dads in home-start support

Dad's Rock

Families at the centre

Early Intervention support, universal supports for kinship carers

What I have learnt which will help me make changes at work

Continued collaboration between services

Services that already are there

The concept of 'corporate family' was new to me

Other groups within communities to connect with/ involve

What other organisations are doing

Continued collaboration to extend wider opportunities for children, young people to access specific services

Advice I would give for future cohorts (either for the participants or facilitators)

Remember parents are key to success + outcomes

Share practice and knowledge

Would you take the same approach if this was your own family?

Combine your efforts to get the best for families

Need to share best practice

What else I want you to know

Too many presentations to engage fully with and have time for full discussions - would a max of 4 be enough?

More time on the world cafe discussions would have been welcomed to allow more solution stuff to be explored and thinking differently about challenges

1 hour lunch could be cut down to provide longer discussion time, maybe 45 mins but it did give some time to build relationships

How do we include the (Passion4fusion) framework?

Can presenters think about the font size they use? Really difficult to read many of the slides
