

How to: Team Check In

Uncertainty about
funding beyond the
first year

Without the right
people, we can't move
forward

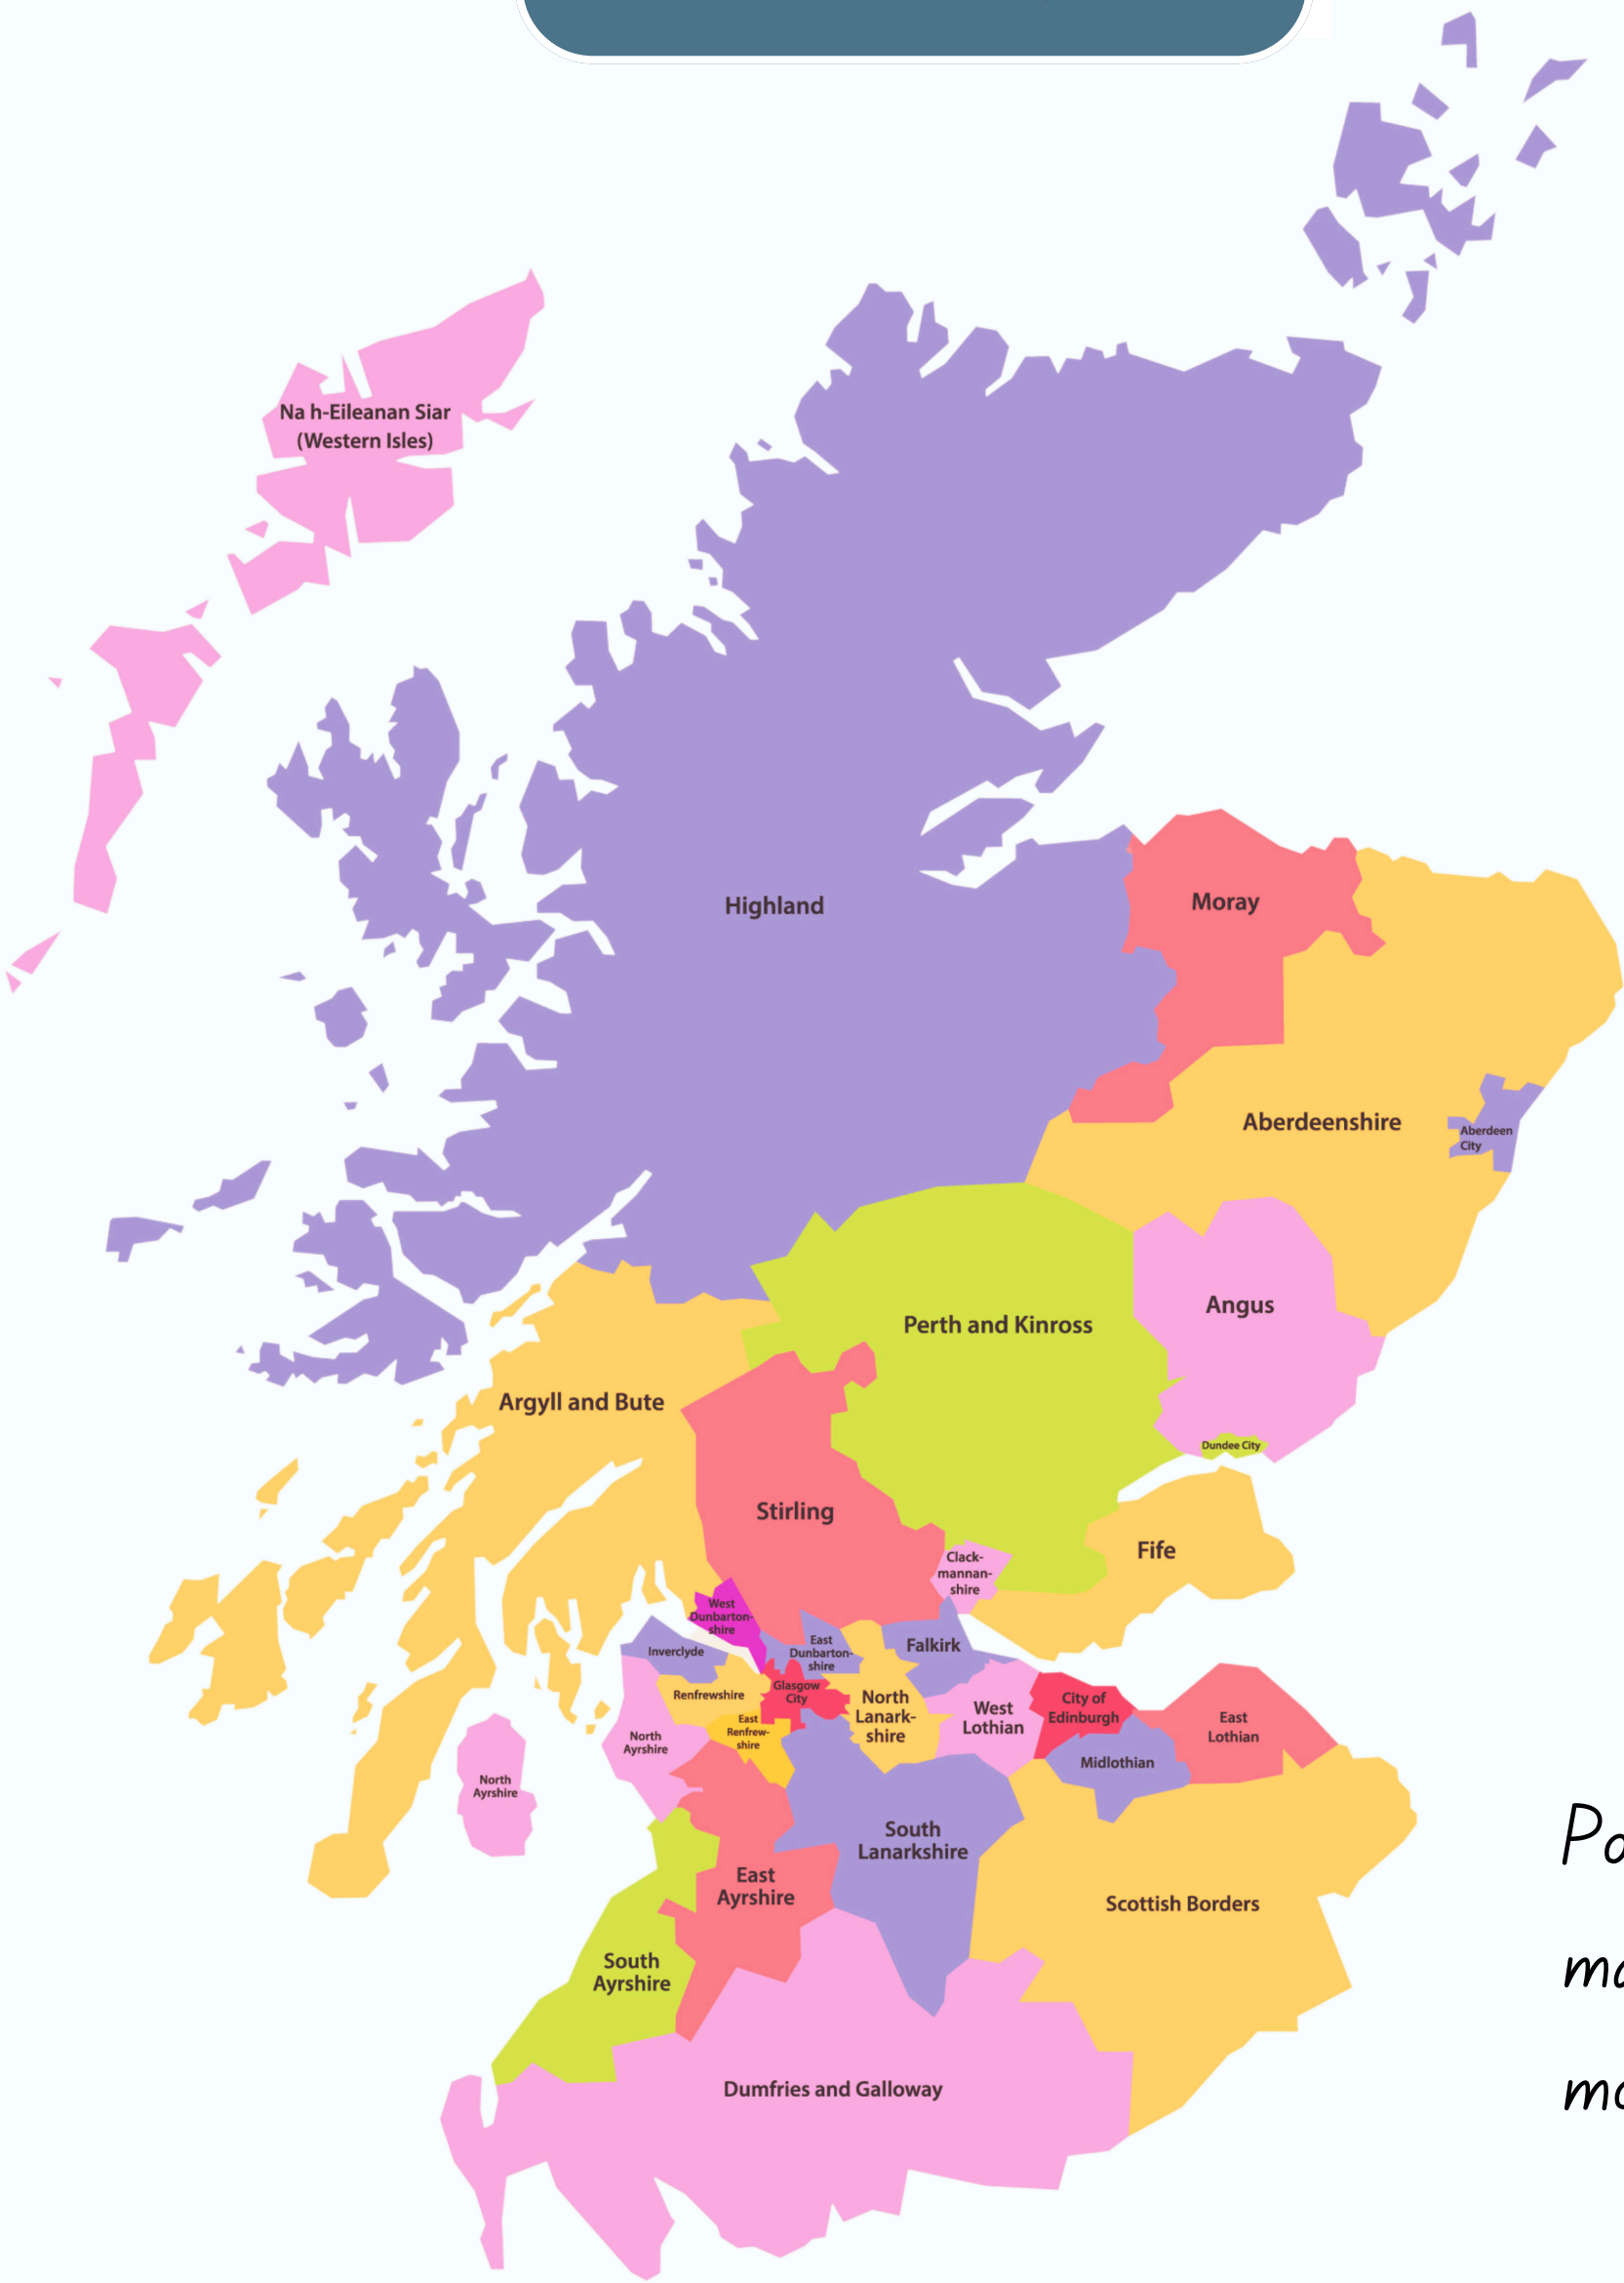

What makes us feel
stuck on the
mountain?

What islands of hope
and opportunity
are there?

Young people are
keen to be more
involved

Senior managers are
showing increasing
interest

What feels like the
sunshine (on Leith) that
pushes us forward?

Policy changes are
making this work
more viable

Community groups have
been really engaged and
supportive

What it's for and how it's used

This is a quick but creative way to find out what is currently happening and how your team thinks and feels about things.

Just add stickies around the three areas. You aim is to understand **what keeps you going, what stops you from moving forward**, and **what opportunities you can see ahead of you**.

Get into specifics if you can. Try to surface what's really going on, and how that might affect what you're trying to do.
