

Problem Re-Framing

Is there another way to think about the problem?

A: The 5 Whys of the System

Outline the specific problem

...and *why* is this a problem?

...and *why* is this a problem?

...and *why* is this a problem?

...and *why* is this a problem?

What does this mean for your problem?

B: The 5 Whys of the Problem

Outline the specific problem

...and *why* does this happen?

...and why does this happen?

...and why does this happen?

...and why does this happen?

What does this mean for your problem?
